the first 10 questions were asked in 5 Likert scale formats ranging from 1 poor to 5 very good and result of these question whereas follow

the organization of training, trainer ability, topics address meets the satisfaction rate of the participant and exceed 75 % which indicate good performance, but unfortunately the rest of the expectation of outcome and technical resources just reach to 70 % satisfaction unfortunately the training material, method of presentation improvement in the knowledge failed to reach the expected satisfaction rate these issue where indicated to be discussed in the next management meeting that agreed to be held in Leipzig for the period of 26-28th of September 2019 and stops on the obstacles or problem

Three opened questions were present to the participants asking for their opinion in the following

- Which topics were not covered?
- Which items were not relevant?
- Are you interested in other themes or topics, other events or seminars? Which ones?

The most important topic that they were most interested in was Medical education and mentioned to be the most valuable topic addressed,
More innovation needs to be included in addition to the simulation laboratory
